Issues/Parts Missing:

The subscribe buttons doesn't update after joining the ports

- User profile
- Dashboard
- Account Settings
- No port Index : <http://localhost:8080/portindex/?> (You can add anything to the end of the url and it still works, but does nothing) Ex:<http://localhost:8080/portindex/?Main> or <http://localhost:8080/portindex/?100000>
- Able to put random port indices <http://localhost:8080/p/10000/> (empty page cause of no posts)or <http://localhost:8080/p/Events/>(events work cause its contains posts)
- Sort by function doesn't work
- Unable to view other user's profile (able to click on the hyperlink by doesn't reroute to the profile)
- Search Engine doesn't work

- After registering
- Logo isn't changed
- Forgot Password doesn't work
- User Image doesn't work
