Port: p/csMemes (not logged in)

Differences from Port (logged in:
Clicking create post will prompt user to sign in
Menu will be open by default.

New Post Creation

Reachable from any Port: p/.. Or port index.

The screenshot displays the logicPort website interface. On the left, a dark red vertical sidebar contains a hamburger menu icon and a small circular profile picture. The main content area is light gray. At the top left, the 'logicPort' logo is visible. The central focus is the 'Create a post on p/' form, which includes a search bar for communities, a required post title field, an optional link field, and a large text area. Below the text area are buttons for 'Add Image' and 'Submit Post'. To the right of the form, a sidebar contains a search bar, a 'VIEW PORT INDEX' button, and a 'TRENDING PORTS' section. This section lists five ports with their member counts and 'Joined' or 'Subscribe' buttons. At the bottom of the sidebar is an 'Advertisement' placeholder.
